JENNINGS LODGE
OREGON

INTRODUCTION

The issuing of our new catalogue is to us like sending a personal greeting to all our garden friends. We have been adding to our collection of plants since we put out our last catalogue, and have increased the stock of many of our rare plants to such an extent that we have been able to reduce prices in many cases.

This year we are listing a great many rare and lovely native plants from Oregon and the Northwest. These are mountain plants and are well able to withstand extremes of temperature. All are nursery grown.

Besides these native plants, we have unusually complete collections of dwarf brooms, flowering onions, campanulas and saxifrages. We also have a fine variety of thymes, teucriums and micromerias and other aromatic plants which will prove a welcome addition to the scented garden.

We are always happy to have visitors call at our gardens, where interesting plants may be found in flower most of the year. Our gardens are situated on a paved road one half block east of the new Portland-Oregon City highway at Hull Avenue, which is one block south of the interurban crossing at Jennings Lodge.

If you live too far away to visit our gardens in person, try visiting by letter. We always welcome correspondence, and are glad to answer questions when we are able, and to give what information we possess. It is also true that we have a great many plants not listed in the catalogue. If you are interested in any particular variety, write to us about it. We may be able to supply your needs.

For a number of years we have been supplying some of our customers with fine Oregon grown English holly sprays and wreaths for the Christmas holidays. We are happy to announce that we are now able to offer this service more widely. We will ship selected sprays of berried holly at 75c per pound and nicely berried holly wreaths at \$1.00, \$1.50 or \$2.00. We also make beautiful wreaths of assorted evergreens. These wreaths are a specialty with us, and are made of assorted shades and textures of evergreen sprays, beautifully decorated with cones. They have the added charm of being delightfully aromatic, besides providing a new note in Christmas decorations. Price, \$2.00.

Terms of Sale

NON-WARRANTY IS A CONDITION OF ALL SALES MADE. On account of the great number of causes of failure over which we have no control, such as poor or improper soil, unfavorable weather, ignorant or careless culture, we can assume no responsibility after stock is delivered.

ORDER EARLY. Early orders are suggested to prevent disappointment in case the variety should be sold out. Please write your name and address plainly.

TIME OF SHIPMENT. We make a point of mailing out orders as soon as possible after we receive them, so if there is any reason why you do not want your order shipped immediately, please be sure to inform us about it, and give us the date on which you wish to have it shipped.

STOCK. All orders will be filled with good strong stock that will be reasonably sure to bloom the first season. We do not substitute.

TERMS. Cash should accompany all orders. No order will be accepted for less than \$1.00, except for seeds. Make checks payable to Carl Starker.

POSTAGE. We prepay postage on all orders over \$2.00 in Oregon, Washington and California. All others please add 10% to help cover postage and packing.

ROCK PLANTS AND ALPINES

Prices of all plants except where noted, 25c.

Realizing that most gardeners want plants that require no pampering, we have included in our list only a few that are at all difficult to manage. If your space permits, by all means use several plants of one kind, rather than one plant each of many kinds. The result will be much more pleasing.

ACAENA. Neat little carpeter with mats of rose-like foliage.

Buchanani. Dwarf trailer with gray green foliage.

Glauca. Beautiful silver gray leaves.

Inermis. (Microphylla). Purple-bronze foliage.

ACHILLEA. Suitable for poor dry soils.

Argentae. A mass of silvery feathery foliage. Flowers white, 4 in.

Clavennae. Wide tufts of downy leaves with clear white flowers.

Nana. Prostrate. White flowers. Excellent for stepping stones.

Blooms in mid-summer.

Tomentosa. Finely cut wooly foliage. Golden yellow flowers. 6-10 in.

ACONITUM Anthora. Monkshood. Pale yellow flowers. 18 in. 35c.

ADENOPHORA. Potaninii. 18 inch spikes of large light blue campanuloid flowers. 35c.

AETHIONEMA. Charming bushlets with beautiful glaucous blue foliage. Desirable for a hot sunny location.

Grandiflorum. Rosy blossoms in racemes. 35c.

Persicum roseum. Light pink. 6-8 in. 35c.

Pulchellum. Prostrate. Beautiful. Soft rose flowers. 35c.

Warley Hybrid. Choice blooms of deep rose. Finest of all. 40c.

AJUGA. Bugle Flower.

Brockbankii. Metallic foliage.

Reptans. Mats of glossy ornamental foliage. Blue flowers.

Variegata Foliosa. Yellow and purple variegated foliage.

ALCHEMELLIA. Alpina. Spreading mats of attractive 5-9 fringed leaves.

ALLIUM. Little known bulbous plants with beautiful showy flowers in umbels. Permanent and easy.

Acuminatum. Rosy, recurved flowers.

Albopilosum. Large and imposing flowers of deep lilac with a metallic sheen. 35c.

Albo-purpureum. Claret red flowers. 3 ft.

Bulgaricum. Late flowering species from the Balkans.

Cernum. Nodding clear pink blossoms. 8 in.

Coeruleum. Very fine with bright blue flowers. 1 ft.

Cyaneum. Lovely light blue flowers in June. 6 in.

Falcifolium. Rose flowers. 2-3 in.

Flavum. Fine yellow flowers.

Flavum minor. Similar to Flavum, but more dwarf.

Globosum. Round heads of mulberry and silver. 3 ft. 35c.

Karatavense. Lilac blue. Wide glaucous leaves. July. 1 ft. 35c.

Moly. Showy heads of brilliant yellow flowers with broad glaucous foliage. Handsome.

Narcissiflorum. Loose, pendant heads of wine-red balls. Very fine 8-10 in.

Neapolitanum. White flowers with green stamens. 1 ft.

Pulchellum. Heads of rose colored flowers. Late. 6-8 in.

Recurvatum Superbum. Taller and more robust than the above.

Rosenbachianum. Large, rosy purple heads. 3 ft. 35c.

Roseum grandiflorum. Lovely deep pink. 12-18 in.

Ruby Gem. Fine amethyst rose. Long season bloomer.

Schoenoprasum. Pretty rosy purple flowers.

Strictum.

Tibeticum. Balls of mauve pink flowers. Dwarf. Early summer.

Triquetrum. Very attractive. Large waxy white blooms. 8-10 in.

ALYSSUM. Showy plants for sunny, well drained places.

Alpestre. Gray foliage. Yellow flowers. Prostrate. Desirable.

Argenteum. Silvery foliage. Deep yellow flowers. 1 ft.

Condensatum. Hoary foliage and light yellow flowers. 6 in.

Idaeum. A real treasure with prostrate shimmering silver green foliage and soft yellow flowers. 50c.

Montanum. Gray green trailer with yellow flowers.

Repens. Pretty creeping species. Yellow flowers. 35c.

Saxatile Compactum. The popular Basket of Gold.

Saxatile Citrinum. A sulphur-yellow form of the above.

Podolicum. Silvery gray leaves and white flowers. 3-4 in.

Spinosum. Silvery foliage with white flowers. Very good. 4-6 in.

ANDROSACE. Primula-like flowers. Requires a gritty soil and prefers a north aspect. Very lovely and choice.

Carnea Lageri. Compact juniper-like foliage and heads of pretty soft pink flowers. 50c.

Chumbyi. Smaller than Primuloides. Velvety rosettes and heads of rosy pink flowers. 3 in. 35c.

Lanuginosa. One of the most beautiful and floriferous with silver foliage and soft rosy lilac blossoms. Blooms all summer.

Primuloides. Rosettes of silvery foliage with lilac pink flowers.

Sempervivoides. Beautiful smooth rosettes of bright green leaves with rosy flowers on 4 in. stems. 50c.

Watkinsi. Tight silky rosettes with pink flowers. 50c.

ANEMONE. Windflower. Lovely plants of easy culture.

Appenina. Exquisite rich blue blossoms in earliest spring. 3 in. 35c.

Blanda. Dwarfier than the preceding with larger flowers of fine soft blue with golden centers. 50c.

Blanda Rosea. An exquisite pink form of Blanda. 35c.

Hupehensis. A pretty species from central China with pale mauve flowers from August to late fall. 35c.

Nemorosa Alba Flore-plena. Lovely abundant double white flowers. Choice and rare. 50c.

Nemorosa Robinsoniana. Pale powder blue with buff reverse. 35c.

Oregana. Choice Western native. Somewhat similar to Nemorosa with white, pink or lavender flowers.

Pulsatilla. Silky buds open to form deep lavender flowers with golden centers. Attractive fluffy seed heads.

Pulsatilla Alba. A fine white form of the above. 35c.

Silvestris. Large creamy white flowers. Dark foliage.

Vernalis. Large white flowers with bluish reverse on very short stems. Choice and rare. 75c.

APHYLLANTHES Monspeliensis. Fascinating little rush with delicate blue lily-like flowers. 9 in. 50c.

AQUILEGIA. Columbine. Handsome foliage all through the year. Showy flowers in May and June.

Akitensis. Beautiful Japanese species with deep blue flowers. 3 in. New and rare. 75c.

Canadensis Nana. Dainty red and yellow flowers very freely produced. Dwarf.

Chrysantha. Fine yellow long-spurred columbine from the Rocky Mountains. 2 ft.

Coerulea. Colorado Native. Lovely blue and white flowers.

Flabellata nana alba. Waxy white flowers. Dwarf.

Helenae. Large blue and white flowers. 12 in. 35c.

Hensel harebell. Vivid deep violet blue. 18 in. 35c.

Jucunda. Gorgeous blue and white flowers of great size and fine substance. Rare. 50c.

Long spurred hybrids. Wonderful colors.

Pyrenaica. Deep violet blue flowers. Dwarf. Choice.

ARABIS. Rock Cress.

Alpina flore-plena. Dense masses of double white flowers.

Alpina rosea. Soft rose colored flowers. Dwarf.

Alpina variegata. Variegated yellow and green foliage. Very showy.

Kellereri. Silvery foliage with white flowers. Choice.

Kohleri. Western native. Compact, with dark red flowers. 6 in.

Procurrens. Dense deep green foliage. White flowers.

Sturii. Cushions of dark foliage and large white flowers. 3 in.

ARCTOSTAPHYLOS *Uva Ursi*. (Bear Berry) Western native. Prostrate evergreen with shiny round leaves and pink tinted flowers followed by showy red berries. 50c.

ARENARIA. Fine carpeting plants.

Balearica. A real gem for carpeting a moist shady place.

Grandiflora. A small tufted alpine with white flowers.

Montana. Trailing green foliage with large white flowers.

ARISAMEA *Triphyllus*. Jack-in-the-pulpit. Curious black and green calla-like flowers. Middle western native. Shade.

ARMERIA. Sea Pink. Thrift.

Caespitosa. Tight cushions of foliage 2 in. high. Produces a profusion of stemless light pink flowers. A rare gem. 50c.

Caespitosa Hybrids. Free flowering hybrids slightly larger than the type. White to deep pink.

Maritima. Neat tufts of grass-like foliage. Round heads of light pink flowers.

Maritima alba. White form of the above.

Maritima Lauchiana. Improved form with rose-colored blooms.

Setacea. Light rose pink flowers. 3 in. 35c.

ARNICA *Montana*. Rosettes of hairy leaves and large yellow daisies.

ARTEMISIA *Glacialis*. Fine cut silvery foliage. 3-4 in.

ASARUM. Wild Ginger. Evergreen ground cover for shade. Western Natives.

Caudatum. Dark leaves and brown flowers.

Hartwegii. Leaves mottled white.

Lemmonii. Similar to the above, but more spreading.

ASCLEPIAS *Tuberosa*. Very showy with brilliant orange flowers.

ASPERULA *Cyananchia*. Trailing plant with fine foliage and masses of airy pinkish flowers. June to September. Sharp drainage.

Longiflora. Long trumpeted white flowers tinted pink. 35c.

ASTER. A large genus of attractive daisy-like flowers.

Acris. A bush type with small bright violet blue flowers in great profusion. 3 ft.

Alpinus. Clear lavender flowers with golden centers. Dwarf.

Alpinus albus. White form of the above.

- Alpinus Dark Beauty.** A fine purple form of *Alpinus*.
Alpinus Dolomiticus. Lovely dark lavender.
Alpinus Goliath. Lilac blooms larger than the type.
Alpinus species. From Wallowa Mountains. Fine Eastern Oregon type.
Amellus King George. Very fine. Profuse blooming bushy plants with large blue flowers. July to Sept. 2 ft. 35c.
Dwarf Hybrids. Wonderful new race of asters like dwarf Michaelmas daisies. Less than one foot tall. Profuse bloomers. Choice and lovely.
Countess of Dudley. Clear pink. 12 in.
Daphne. Lovely soft pink. 9-12 in.
Lady Henry Maddocks. Clear pale pink. 9 in. 35c.
Marjorie. Large flowers of bright rose pink. Compact. 9 in. 35c.
Nancy. Lavender pink. 9 in.
Ronald. Lilac pink with rose pink buds. 12 in.
Snowsprite. Lovely low bush semi-double white blossoms. 35c.
Victor. Very dwarf. Blossoms clear pale lavender blue. 6 in. 25c.
Linarifolius. Very fine blue. 10 in.
Mt. Everest Species. Freely branching with many large mauve daisies.
Pleiades. Yvette Richardson. Lavender blue. 8 in.
Ptarmicoides. White flowers in flat corymbs. Very neat and dwarf. Long season bloomer.
Subcoeruleus. Large lilac blue flowers. Dwarf.
ASTILBE. Simplicifolia. Neat glossy leaves and fluffy spires of pinkish blossoms. Choice. 50c.
AUBRETIA. Neat tufts of gray green foliage smothered with flowers in early spring.
Hybrids. Fine large flowered forms from named varieties.
Leichtlinii. Rosy carmine. Compact habit. 35c.
Variegata. Variegated yellow and green foliage with purple blue flowers. Rare. 35c.
AURICULA Alpina. Handsome primrose like plants with smooth powdered foliage and velvety flowers. Half shade.
BELLIS Rotundifolia Coerulescens. Dainty miniature rosettes with lavender blue daisies.
BRODAEA. Easy bulbous western native plants producing big heads of showy flowers.
Hendersoni. Starry pale yellow flowers with blue lines. 20c.
Ixioides. Bright yellow with darker bands. 20c.
Lactea. White with green mid vein. 20c.

BROOMS. Because there is a certain amount of confusion in their botanic classification, we have decided to list all *Cytisus* and *Genista* species under the main heading of brooms. These dwarf brooms, none of which grows over two feet tall, make ideal rocky shrubs and are admirably suited to hot and sunny situations.

Cytisus Ardionii. A low growing treasure with flowers of brilliant yellow. 6-9 in. 75c-\$1.00.

Cytisus Dallimorei. Compact shrub with yellow blossoms marked with deep red. 20 in. 50c-\$1.00.

Cytisus Hirsuta Decumbens. Very prostrate with trailing stems and masses of bright yellow flowers. Very choice. 50c.

Cytisus Kewensis. A showy and beautiful broom of spreading habit covered with creamy white flowers in May. Rare. 8-12 in. 75c-\$1.00.

Cytisus Purgens. (*Kewensis Pungens*) Compact globular bush covered with yellow flowers in May. 35-50c.

Cytisus Purpureus. Slender weeping branches and rosy lavender flowers. Graceful and lovely. 50c-\$1.00.

Cytisus Sericeus. A silky low mat with yellow flowers. Rare. \$1.00.

Genista Dalmatica. Tiny round bushlet with finely cut foliage smothered with bright yellow flowers in May. 75c.

Genista Falcata. A dwarf shrub, twisted and spiny. Yellow flowers. Rare and interesting. \$1.00.

Genista Germanica. Loosely growing spiny bush with abundant yellow flowers in racemes. 50c.

Genista Hispanica. Dense spiny mats. Foliage hidden by the bright yellow flowers in May. 1 ft. 75c.

Genista Horrida. Choice and spiny. Forming silvery tuffets with yellow flowers. Rare. 4 in. \$1.00.

Genista Pilosa. Dainty foliage. An attractive trailing species with yellow flowers. 50c.

Genista Radiata. Dainty silvery spidery bushes. Yellow blooms. May-July. 12 in. 50c.

Genista Sagittalis. Deep green cactoid foliage with abundant spikes of golden flowers. Trailing. 8-12 in. 25-50c.

Genista Tinctoria flore plena. Valuable prostrate form with double yellow flowers. 25-50c.

BRUCKENTHALIA Spiculifolia. Small heath like plant with pink flowers in June. 6-8 in. 50-75c.

BUPHTHALMUM Salicifolium. Large orange gold daisies.

CALANDRINIA Umbellata. Satiny *Lewisia* like flowers of dark crimson. Rich and showy for a dry sunny place.

CALCEOLARIA Polyrhiza. Dainty lemon yellow slipper shaped flowers. Moist soil. 4 in. 50c.

CALMINTHA Alpina. Mats of aromatic foliage. Soft lavender blooms

CALLIRHOE Involucrata. Trailing habit. Showy crimson flowers all through summer and autumn. Full sun.

CAMASSIA Leichtlinii. Western native. Fine tall spikes of deep blue star shaped flowers. 3-4 ft. 10c.

CAMPANULA. A large family of varied forms, containing much desirable rock garden material, especially valuable on account of its long season of bloom.

Abietina. Fine violet vase shaped flowers. 9 in. May-November.

Allioni. A marvelous high alpine for the moraine or gritty soil. Very large purple bells. 2-3 in. Rare. 75c.

Barbata. Bearded Bell of the Alps. Pale China blue flowers.

Collina. Satiny deep purple bells. 9 in. 35c.

Fenstrellata. A form of Garganica with smooth foliage and soft blue star like flowers. 35c.

Garganica. Compact rosettes of handsome foliage literally covered with bright blue stars.

Glomerata Acaulis. Cluster heads of deep violet flowers. Very dwarf.

Isophylla. Lovely for walls and large stones in the rockery. White flowers one inch across in great profusion. 35c.

Isophylla Mayi. A lavender blue form of Isophylla with downy foliage. 50c.

Lasiocarpa. Fine neat rosettes of shiny toothed leaves with upright powder blue flowers on 3 in. stems. Very choice. 50c.

Laurii. Fine upright lavender bells. Free and continuous bloomer.

Muralis. (Portenschlagiana) Attractive mats of deep green foliage with many starry violet bells. June-November.

Persicifolia Moerheimii. Fine waxy white double flowers.

Persicifolia Pfitzeri. Fine large double blue.

Poscharskyana. A fine new trailing campanula with quantities of soft blue flowers from May to October.

Pseudo-Raineri. Charming little plant with very large purple flowers. Compact and free flowering. One of the finest. 35c.

Pulla. Broad masses of bright green foliage with shining purple blue bells. 2-3 in. 35c.

Pulloides. A magnificent version of Pulla with larger flowers. 50c.

Pusilla. Dainty nodding lavender blue bells on wiry stems. 2-3 in.

Pusilla Alba. White form of the above.

Pusilla Miranda. Larger silver blue bells on 4 in. stems. Late. 35c.

Raddeana. Glossy scalloped leaves and deep purple bells. 9 in.

Rhomboidalis. Flore Plena. Similar to Carpatica but double and more dwarf. 50c.

Rotundifolia. Dainty blue bells from May to November. 8 in.

Rotundifolia Purple Gem. Glorious shade of deep purple. More floriferous than the type. 8 in. 50c.

Sarmatica. Many spikes of pale blue bells. 35c.

Tommasiniana. A beautiful late blooming species with many tiny pale purple bells on slender wiry stems. A real treasure. 6 in. 75c.

CARLINA Acaulis. Spiny rosettes of silvery foliage with large sessile straw colored flowers.

CATANANCHE Coerulea. Heads of lavender blue flowers. 12 in.

CERASTOSTIGMA Plumbaginoides. (Plumbago Larpentae.) Dwarf spreading habit; bronze foliage, deep blue flowers in fall. Desirable.

CHELANDRUM Zawadski. Rosettes of shiny leaves and white silene-like flowers.

CHIOGENES Hispidula. Creeping Snowberry. Trailing evergreen with showy white berries. 35c.

CHIONODOXA. Very desirable bulbs blooming at the same time as the crocuses, producing dwarf spikes of starry flowers.

Lucilliae. Sky blue flowers with white centers. 50c per doz.

Sardensis. A rich blue self, earlier than the above. 50c per doz.

CHRYSANTHEMUM. Amaliae. (azaleamum) Soft pink blossoms. Persistent bloomer from Aug. to Nov. 12-15 in.

Koreanum. Fine single pink blooms with a yellow eye. Late blooming.

Mawii. Charming pink Marguerite with dainty silvery foliage. 1 ft.

Tchihatchewii. (Turfig Daisy) Dense ferny ground cover for dry exposures. White flowers on 4 in. stems.

CISTUS Villosus. Beautiful shrub with bright rosy flowers. 12-18 in. 35c.

CLEMATUS Davidiana. Erect habit. Small sweet scented blue flowers in clusters. 2 ft. 35c.

Integrifolia. Large deep blue flowers with white centers on flopping two foot stems. 50c.

Tangutica. Climbing species with golden globe shaped flowers. To eight feet. New. 50c.

CODONOPSIS Ovata. Trailing plants with soft hairy leaves and light blue bells beautifully patterned within with orange and purple. 35c.

COLCHICUM. Autumn Crocus or Meadow Saffron. The flowers which resemble large crocuses, appear without foliage after the first fall rains. They are free flowering and bloom for a long period. The glossy green foliage, much like that of a tulip, appears in spring.

Autumnale Album. Pure white. 25c each.

Autumnale Minor. Lovely orchid lavender. 25c each.

Bornmuelleri. The grandest of all colchicums. Blooms earlier and with much larger flowers of tender lilac rose on a white base. 75c each.

- Parkinsonii.** Narrow wavy leaves; checkered blossoms of deep lilac rose and white. 25c each.
- Speciosum.** Rosy mauve. 25c each.
- CONVOLVULUS.** Perennial Morning Glory. Persistent summer bloomer. These forms do not spread.
- Cantabricus.** Gray foliage and fine pink blooms all summer and fall. 50c.
- Mauritanicus.** More trailing than the former with lush foliage and lavender blue flowers. Persistent and profuse bloomer.
- COPTIS Trifolia.** Gold Thread. Good ground cover for shade with finely cut deep green foliage.
- CORYDALIS.** Fine ferny foliage. Constant bloomers. Suitable for walls. Good in half shade.
- Bulbosa.** A bulbous form with dainty orchid flowers in early spring. Plant in late summer. 50c.
- Cheilanthesfolia.** Foliage turns bronzy in fall. Long spikes of yellow flowers. 35c.
- Lutea.** Lemon yellow flowers. Easy and good.
- Sempervirens.** Pink flowers and glaucous ferny foliage which becomes quite colorful in fall.
- COTONEASTER Humifusa.** Slender creeping stems; leaves one inch long, solitary white flowers followed by bright red berries. 25-50c.
- COTULA Squalida.** A good bulb cover with fine ferny foliage.
- CROCUS.** Autumn flowering. These are true crocuses which bloom in the fall. Although not so large as the colchicums, they have a delicate beauty all their own. They bloom after the foliage is gone.
- Speciosus.** Very blue lavender with prominent orange stigmata. Exquisite. 5c each.
- Zonatus.** Soft rosy lavender with yellow center and orange zone. Etherial and lovely. 5c each.
- CYCLAMEN.** Hardy variety. Handsomely marbled leaves. Flowers varying from white to pink. Autumn blooming. Very choice. 50-75c.
- CYNOGLOSSUM Grande.** Western Native. Large hairy leaves and spikes of large blue forget-me-nots.
- CYPREPIDIUM.** The grandest of the hardy orchids. Suited to a moist shady corner.
- Fasciculatum.** A rare species from southern Oregon with spikes of small dainty pink and brown flowers. 50c.
- Montanum.** Oregon native with white and brown flowers on 12 in. stems. 50c.
- Pubescens.** Yellow Lady Slipper. The dainty deep yellow slippers are borne several on a stem. 50c.

Spectabile. Showy Lady Slipper. Huge blossoms of rosy purple with white segments. 60c.

CYTISUS—See brooms.

DABOECEA Polifolia. (Irish Bell Heather). Symmetrical little bush covered with large pink vase shaped blooms from mid-summer till autumn. 25-50c.

Polifolia Alba. A fine white form of the above. 25-50c.

DALIBARDA Repens. Dainty creeper with violet-like leaves and single white flowers. Requires shade. 35c.

DAPHNE Blagayana. A noble creeping species with evergreen foliage and very early flowers of sulphur yellow. Choice and rare. Stock limited. \$3.00.

Cneorum. Fine evergreen shrub for the rockery with heads of fragrant pink flowers. 8-12 in. 50c-\$1.50.

DELPHINIUM Tatsiense. Choice and new. Brilliant blue flowers produced over a long period. 14 in. 35c.

DIANTHUS. Pinks are among the finest rock garden subjects. They are of easy culture in sunny, poor soil. Our collection contains most of the desirable rock garden species.

Alpinus. Very dwarf with large deep rose colored flowers. 35c.

Arvenensis. Very neat and attractive. Pink flowers. 3 in.

Caesius. Blue gray foliage. Rosy fringed flowers. 6 in.

Carthusianorum. A fine cluster head with starry flowers varying from rosy magenta to crimson. Late. 8 in.

Cruentus. Blood red custer head with grassy foliage.

Deltoides. Free flowering rose from June to August. 4-6 in.

Highland Queen. A great favorite. Single rose blossoms with dark eye. Fragrant. 9-12 in.

Lacinatus albus. Fringed white. Sweet scented and dainty.

Neglectus. A very beautiful sort. Grassy tufts of foliage with brilliant blossoms of cherry rose with buff reverse. 35c.

Seguieri. Rosy purple flowers. Very late bloomer. 12 in.

Sundermanii. Large waxy white flowers with a distinct jasmine odor. New and rare. 4-6 in. 35c.

Sylvestris. Dense grassy tufts from which spray arching stems carrying clear big pink flowers. 35c.

Sylvestris Frigidus. Similar to the above, but more dwarf.

Winteri. Large single flowers. Colors various.

DICENTRA. Bleeding Heart. Finely cut foliage and flowers in racemes.

Cucullaria. Dutchman's Breeches. Dwarf, with glaucous leaves and white flowers.

Eximia. Rose pink flowers over a long period.

Oregana. (Glauc.) Similar to the above, but with silvery foliage and creamy white flowers. Choice Oregon native. 10 in. 35-50c.

DIERAMA Pulcherrima. Australian Wand Flower. Stiff iris like leaves and thin wiry arching stems bearing a shower of elegant bell shaped flowers. Pink and red shades. Rare and lovely. 35c.

DIGITALIS Lutzi Hybrids. Large soft yellow fox-gloves with darker spots.

DODECATHEON. Shooting Stars. Bird's bills.

Campestris. Narrow leaves and pinkish flowers.

Conjungens. Rosettes of narrow leaves and pale pink flowers. Very early bloomer. 6-9 in.

Dentatum. Toothed leaves and white blossoms.

Hendersonii. Rosettes of thickened leaves and showy heads of purple flowers.

Jeffreyi. Taller and later with paler flowers.

Poeticus. White and pink.

DOUGLASIA Laevigata. A charming high alpine from the Coast range in Oregon. Inch high cushions of foliage studded with glowing flowers of rosy pink. 50c.

Vittaliana. Gray green rosettes with citron yellow flowers. 35c.

DRABA Olympica. Mossy mats with golden flowers.

DRYAS Octapetala. Makes flat evergreen carpets of little oak leaves with dainty waxy white flowers followed by silvery seed whorls. Good 50c.

EDELWEISS—See *Leontopodium*.

EDRIANTHUS Dalmatica, Basal rosettes of shiny leaves and starry blue flowers.

Tasmaniaca. Shiny green cushions with bright blue flowers on wiry 2 in. stems.

EPIGAEA Repens. Trailing Arbutus. Creeping evergreen with delicate pink tinted flowers. Exquisite fragrance. Shade and acid soil. 50c.

EPILOBIUM Macropus. A neat species with bronzy foliage and large white flowers. Creeper. 35c.

Nummularium. A neat carpeter with glossy bronzy leaves. Flowers inconspicuous.

EPIMEDIUM. Attractive evergreen plants with shiny bronzy leaves and dainty flowers in loose spikes. Blooms early. Prefers part shade.

Lilacaeum. (Violaceum) Dainty lavender flowers. 50c.

Macranthum Roseum. Rosy pink flowers. 50c.

Niveum. Lovely white flowers. 6 in. 50c.

Sulphureum. Pale yellow flowers. 50c.

EPIPACTUS Gigantea. A dainty terrestrial cluster orchid, prettily marked with pink and brown. 35c.

ERANTHUS Hymalis. Winter Aconite. One of the first spring blooming bulbs. Bright yellow flowers resembling buttercups, rising from an encircling collar of fringy green. 50c per doz.

ERICA. Choice dwarf heathers for sun or half shade.

Carnea rosea. Charming with pink flowers from November to March. Very free flowering. Especially good for winter color. 35c-50c-75c.

Carnea alba. Fine white form of the above. 50c.

Ciliaris. Fine summer bloomer with spikes of rosy purplish flowers. June-Sept. 18 in. 50c.

St. Keverne. Bright clear pink flowers. New and rare. 50-75c.

Tetralix. Produces for many weeks large soft pink bells in pretty terminal clusters. 50c.

ERIGERON. Similar to aster in appearance, habits and needs.

Mucronatus. A trailing species bearing pretty pink and white daisies from June till autumn.

Speciosus. Lilac flowers all summer.

Trifidus. A persistent blooming western native with finely divided, hairy leaves and delicate lavender daisies on two inch stems. 50c.

ERINACEA Pungens. Blue Broom. A spiny bushlet with clear, lavender-blue pea shaped blossoms in early spring. Extremely rare. First time offered in the United States. \$1.50.

ERINUS Alpinus Hybrids. Charming wall or crevice plant with white to rose colored blooms.

ERIOPHYLLUM Caespitosum. Oregon Sunshine. Bright yellow daisies with fine cut hoary foliage. 12 in.

ERODIUM. Fine rock garden subjects similar to hardy geraniums.

Chamaedryoides roseum. Mats of scalloped foliage with rosy flowers. Persistent bloomer.

Cheilanthesfolium. Lacy gray foliage and large blush white flowers with deeper veins. 75c.

Chrysanthum. Lovely gray foliage and sulphur yellow blossoms. Distinctive and rare. 75c.

Corsicum. Tufts of crinkly velvety foliage with rosy pink flowers. 50c.

Manescavi. Ferny foliage and rosy magenta flowers.

ERYTHREA Diffusa. Pink gentian. A neat, brilliant, free flowering little plant bearing a profusion of waxy rose pink stars in late summer.

ERYTHRONIUM. Dog-tooth Violet. Should be planted in the fall.

Giganteum. Large cream colored flowers. 10c.

Grandiflorum. Bright yellow with plain green leaves. Earliest to bloom. 10c.

Hendersoni. Lovely soft lavender with mottled leaves. 10c.

Johnsoni. Rose pink flowers and mottled foliage. Very fine. 10c.

Parviflorum. Bright yellow flowers on 10 in. stems. 10c.

Rose Beauty. Large deep rose pink flowers. 10c.

EUONYMUS Kewensis. Dwarf trailing evergreen with red berries. 50c.

EUPHORBIA. For hot, sunny places.

Myrsinites. Prostrate evergreen with blue green foliage and yellow flowers in early spring. 35c.

Pilosa. A round bush. Soft gold in spring and flame colored in autumn. 35c.

Polychroma. A neat symmetrical plant with glaucous foliage and showy heads of yellow bracts. 12 in. 50c.

FERNS. We have an unusually complete collection of ferns, some of which are suited to rockery conditions, while others are adapted to the shade garden. These ferns are all hardy, and will prove a welcome addition to the garden.

ADIANTUM Pedatum. Maidenhair. Delicate light green finely-cut foliage. Very airy. Shade. 12-15 in.

ATHYRIUM Filixfemina. (Cyclorosum) Lady fern. Fine, wide, large lacy fronds. Shade and moisture. 2 ft.

ASPLENIUM Platyneuron. Narrow black-stemmed fronds. 5-10 in. 35c.

Trichomanes. Delicate fronds, much like maidenhair. Dry conditions in shade. 3-4 in.

BOTRYCHIUM Silaifolium. Grape fern. Fine cut dark green leaves of leathery texture. 12-14 in. 50c.

Virginianum. Large growing species with lovely broad leaved foliage. 50c.

CHEILANTHES Californica. Similar to *densa* with larger leaves more finely cut. 6 in. 50c.

Densa. (*Pellaea Densa*) Finely cut wide green fronds. Sun or shade.

Gracillima. Lace fern. Very lacy and delicate. Rock crevices in very well drained soil. 4 in. 50c.

Lanosa. Fine lacy fern with silvery reverse. 6-8 in. 35c.

Tomentosa. Somewhat similar to *lanosa*, but less compact. 35c.

CRYPTOGRAMMA Acrostichoides. Parsley fern. A lovely feathery fern. Good for hot, dry rocks. 5 in.

DENNSTEDTIA Punctilobula. Hay scented fern. Dense mats of fragrant fronds. 1 ft.

DRYOPTERIS. Arguta. Finely cut, wide evergreen fronds. 14 in. 35c.

Clintoniana. Clinton's woodfern. Fine evergreen fern. Shade. 3 ft. 35c.

Cristata. Crested woodfern. Beautiful dark green fronds. 2-3 ft. 35c.

Nevadensis. Fragrant fern. Light green finely cut fronds. 8-14 in. 35c.

Noveboracensis. New York fern. Pale green leaves tapering both ways from the middle. 1-2 ft. 35c.

Spinulosa. Shield fern. Large, wide lacy fronds. 2 ft.

Spinulosa Variety Dilitata. Leaves more nearly triangular than the type. 2 ft.

ONOCLEA Sensibilis. Large broad triangular leaves. Very hardy and easy.

OSMUNDA. Cinnamonea. Cinnamon fern. Showy large fern with 2-4 ft. fronds. Young growth covered with rusty wool. Very attractive. 35-50c.

Claytoniana. Interrupted fern. Similar to the above, but young growth clothed in white wool. Imposing. 35c-50c.

Regalis. Royal fern. Handsome wide branching fronds of pale green. A very beautiful fern. 3 ft. 35-50c.

PELLAEA Andromedaefolia. Coffee fern. Airy and graceful with rounded pinnae and wiry stems. 12 in. 50c.

Atropurpurea. Attractive gray green fronds and black stems. Stands sun and drought well. 8 in. 50c.

Brachypteris. Finely cut blue green fronds. Fine and new. Sunny rocks. 4 in. 50c.

Orthinopus. Bird's foot fern. A lovely airy fern with dainty pinnae arranged in groups of three, like miniature bird tracks. 50c.

PITYROGRAMMA Triangularis. Gold back fern. Dry conditions in light shade.

POLYPODIUM Vulgare. Western licorice fern.

POLYSTICHUM.

Acrostichoides. Christmas fern. Evergreen dagger like fronds. 12-18 in.

Andersoni. Rare species with lacy fronds, similar to Brauni. 18-24 in. \$1.00.

Brauni. Graceful lacy fronds and stems covered with brown scales. 18-24 in. 75c.

Lemmoni. Rare and beautiful species with stiffly erect compact fronds. 6-8 in. 75c.

Lonchitis. Holly fern. Long stiff narrow fronds with prickly edges. 15 in. 50c.

Munitum. Western Sword fern. Large clumps of evergreen fronds. 18-36 in.

Plumosum compactum. A very beautiful fern with lacy, plume like fronds of pale green. Attractive in the garden or as a house plant. Probably tender in the east. 50c.

Viviparum. Similar to the above, but with longer, less lacy fronds. 25-50c.

SCOLOPENDRIUM Vulgare. Eastern Hart's Tongue. Broad leathery entire leaves. Rare and choice. 50-75c.

Vulgare crested. Lovely waved and crested form of the preceeding. 50-75c.

STRUTHIOPTERIS Nodulosa. Ostrich Plume fern. Large fronds growing in a circle from the crown. Showy and easy. 4 ft. 35-50c.

Spicant. Deer fern. Heavy leathery evergreen fronds with rounded pinnae. Oregon native. 35-50c.

WOODSIA Cathcartina. Low growing with narrow, finely divided fronds. Rare. 50c.

Ilvensis. Rusty woodsia. Stems covered with brown wool. Dwarf.

Oregana. Lacy, narrow light green fronds.

Scopulina. Dwarf and dainty.

WOODWARDIA radicans. Great chain fern. 50-75c.

FESTUCCA Glauca. Dwarf blue gray tufted grass.

FRITILLARIA. Native bulbous plants with drooping, bell shaped flowers.

Lanceolata. Brown and green speckled flowers. 12-14 in. 15c.

Pudica. Fine butter yellow flowers. 6 in. 15c.

GALANTHUS. Snowdrop.

Elwesii. Giant snowdrop. Dainty white drooping flowers, blooming very early. Largest and finest of all snowdrops. 65c per doz.

Nivalis. Similar to the above, but smaller. 60c per doz.

Nivalis flore plena. Double snowdrop. Similar to the preceding, but with double flowers. 75c per doz.

GALAX Aphylla. Attractive, shiny rounded leaves, bronzy in tone and leathery in texture. Shade. 50c.

GAULTHERIA Procumbens. Wintergreen. Evergreen carpenter with attractive glossy foliage and white flowers followed by red berries. 35-50c.

GENISTA—See Brooms.

GENTIANA. These plants provide some of the most gorgeous blues of the rock garden.

Acaulis. Gentianella. One of the most beautiful alpines, the incomparable big blue trumpet gentian. Rich shining blue. Blooms spring and fall. 3 in. 35-50-75c.

Acaulis Clusii. Longer stemmed than the above. Blooms darker. 35-50c.

Asclepiadea. Willow gentian. Fine arching stems with lovely deep blue trumpets borne in great profusion. A very lovely late bloomer of easiest culture in part shade. 50-75c.

Bisetae. Western native. A dwarf, compact sort, with fine blue flowers with white throats spotted brown. 35c.

Cruciata. Deep blue flowers in clusters. Easy and vigorous. Late. 35c.

Excisa. A larger, finer acaulis with taller stems. 50c.

Farreri. Lovely sky blue trumpets surrounded by grassy foliage. Semi-prostrate. August till frost. 50c-\$1.00.

Macaulayi-Well's variety. Hybris between Farreri and Sino-Ornata. Midway between the two in color. Strong compact growth. Easy. 75c.

Menziesii. A dwarf Oregon native with clusters of small, deep blue semi-open flowers.

Oregana. Broad funnel shaped blue flowers. 12-18 in.

Orfordi. A very dwarf form from the Oregon coast with trailing stems. 35c.

Parryi. Showy deep blue trumpets two to five on a stem. 12 in. 75c.

Pflogifolia. Clusters of blue flowers in June. 6-8 in. 50c.

Purdomii. Very choice, with flowers of deep cobalt blue. 50c.

Septemfida. The most dependable sort. Beautiful blue fringed bells in fine clusters. July-Sept. 12 in. 50c.

Septum. An Oregon coast native with semi-open, deep blue flowers 2 ft.

Sino-Ornata. Finest of autumn flowering gentians. Fine dark blue trumpets from Oct. to Dec. 4 in. 35-50c.

Verna. Lovely spring gentian. Numerous sky blue stars with white centers. \$1.50.

GERANIUM. These hardy geraniums bloom through a long season and are of easiest culture in a sunny location.

Cinereum. A dwarf species with grayish foliage and light pink flowers. 50c.

Endresii. Clear rose colored blossoms continuously produced. 9-12 in. 35c.

Farreri. A very choice dwarf geranium with lovely large light pink flowers with black stamens. Very rare. Fall delivery only. \$1.00.

Grandiflorum. Large ultramarine blue flowers. 35c.

Ibericum. Fine violet blue flowers. The foliage assumes rich autumnal tints. 18 in. 35c.

Pylzowianum. Nicely cut leaves on frail stems and flights of large pink blossoms. 3 in. 50c.

Sanguineum Lancastriense. Fine prostrate foliage and lovely soft pink flowers. 35c.

Traversii. Most attractive plant with shimmering silver gray foliage and rose pink flowers. Fall delivery. 6-9 in. 50c.

GEUM. Interesting both for flowers and foliage. Easy.

Borisii. Large vivid orange flowers. One of the finest. May-Oct. 35c.

Heldreichii. Lovely gray foliage and bright orange red blooms. 35c.

- Lady Stratheden.** Large double golden yellow. 18-24 in.
- Montanum.** One of the most desirable species. Large golden flowers 3 in. 50c.
- Mrs. Bradshaw.** Double scarlet. Showy. 24 in.
- Rivale,** Leonard's variety. Nodding coppery pink blossoms. 8 in.
- Rossii.** (*Sieversia turbinata*) Dwarf native species with feathery deep green leaves and bright golden flowers. 3 in. 50c..
- GLOBULARIA.** Evergreen metallic foliage and blue flowers in heads.
- Cordifolia.** Bluish glossy foliage. 3 in.
- Nana.** Tiny prostrate shrub covered in early June with fluffy blue balls. 50c.
- Wilkommii.** Large heads of clear soft blue. New. 35c.
- ORMANIA Laxa.** Sedum-like rosettes and pink flowers.
- GYPSOPHILA.** Attractive low, much branched plants with clouds of tiny flowers.
- Repens.** Blue gray mats covered in May and June with countless lovely white stars.
- Repense rosea.** Dainty rose form of the above.
- HABENARIA Fimbriata.** A lovely lavender fringed orchid. A 14 inch spike studded with dainty fringed blossoms of exquisite lavender pink. Very rare. 50c.
- HABERLEA Fernandi-Coburgi.** Rosettes of thick leathery deep green leaves and lilac lavender gloxinia-like flowers. For a cool north exposure. Very choice. 75c-\$1.50.
- HEDERA Conglomerata.** An attractive slow growing ivy with crowded leaves. 35c.
- HELENIUM Hoopesii.** Pure orange flowers three inches across. 18-24 in.
- HELIANTHEMUM.** Rock rose. Showy small evergreens for walls and banks, with shiny foliage.
- Mutibile Apricot.** Large apricot flowers and glossy foliage.
- Boule de Feu.** Double flowering deep red.
- Burnt Orange.** Pumpkin colored flowers.
- Double orange.**
- Double yellow.**
- Lemon Queen.** Single bright yellow.
- Rhodanthe carneum.** Silvery foliage and rosy pink flowers.
- Single pink.**
- Single white.**
- Tuberaria.** Mats of corrugated broad glossy leaves and spikes of yellow blossoms. 35c.

HELLEBORUS. Hardy herbaceous plants with attractive foliage. Very early blooming.

Corsicus. The beauty of this plant lies in its prickly evergreen foliage which is unimpaired by frost. Flowers are pale yellowish green in fine clusters. Very rare. \$1.00.

Niger. Christmas Rose. Blooms throughout early winter. White anemone like flowers tinted with apple blossom pink. Our strain is unusually free flowering. Very rare. \$1.00.

Orientalis. Similar to the above, but varying from pink to purple and chocolate brown. Later and taller. 50c-75c.

Viridus. Magnificent frost resistant dark green foliage and pale green flowers. 75c.

HELONIAS Bullata. Terrestrial orchid with flat rosettes of evergreen shiny leaves and spires of starry pink flowers. Moist situation. 50c.

HEPATICA Triloba. One of the earliest spring bloomers. Small anemone like flowers in white, pink and lavender.

HERNIARIA Glabra. Dense mossy foliage. Fine trailer.

HEUCHERA. Coral bells.

Alba. Dainty white bells.

Cascade. A new large flowered shell pink. 35c.

Hybrids. Lovely colors from cream to deep red.

Pluie de Feu. Very fiery red. 35c.

HUTCHINSIA Alpina. A true alpine with mossy green foliage covered with dainty white flowers in spring. 35c.

HYPERICUM. St. John's Wort.

Coris. A choice shrublet with clouds of sparkling golden flowers. Very choice and rare. 35c.

Olympicum. Blue gray foliage. Large yellow flowers.

Reptans. Marvelous little mat-forming beauty. Lovely soft golden blooms. Buds red on the outside. 1-2 in. 35c.

IBERIS Correaefolia. Glossy dark green leaves and masses of white flowers in May. 8 in. 35c.

Saxatalis. A lovely prostrate candytuft with fleshy leaves and white blossoms. Persistent bloomer. Choice and rare. 2 in. 50c.

Tenoreana. Dainty white flowers. Early.

INCARVILLEA Brevipes. Hardy Gloxinia. Attractive pinnate foliage and rich rosy trumpets. 6-12 in. 50c.

Delavayi. Similar to the above but slightly taller. 50c.

INULA Ensifolia. Narrow leaved tuffets of foliage. Numerous golden daisies on 6-9 in stems.

IRIS—See Iris species.

JASIONE Perennis. Tufts of foliage. Globular heads of powder blue flowers.

KALMIOPSIS Leachiana. A native evergreen shrublet with small dark green leaves and pink kalmia like blossoms. One of the very choicest shrubs for the rockery. New and very rare. 8 in. \$1.00-\$1.50.

KNIPHOFIA. Dwarf red hot poker. Late blooming.

Mirabilis. Choice hybrids from yellow to deep orange.

Rufa. Primrose yellow tinged with red. 1½ ft.

Tuckii. Yellow tinged bright red. 1½ ft.

LAVANDULA. Dwarf lavender.

Atropurpurea nana. Silvery gray foliage and intensely purple flowers. 10 in. 35c.

Munstead. Compact habit. Blue flowers. 1 ft.

Pedemontana. Aromatic lavender with deep purple blooms.

LEONTOPODIUM Alpinum. Edelweiss. A well known alpine with wooly flowers.

LEUCOCRINUM Montanum. The lovely native star lily. Narrow foliage and clusters of almost stemless fragrant white flowers. Sharp drainage.

LEWISIA. Oregon natives requiring sun and sharp drainage.

Columbiana. Rosettes of thick leaves. Clusters of pale pink flowers.

Columbiana rosea. Shinier leaves. Deep rose flowers over a long period. Good. 35c.

Hecknerii. Spiny edged leaves with pink or white flowers. New and rare. 50c.

Howellii. Lovely crimped grayish green foliage with radiating heads of soft apricot flowers. 35c.

Oppositifolia. Very lovely with white blossoms faintly tinged pink. Deciduous species.

Rediviva. Satiny pink flowers. Deciduous.

LINDELOFIA Spectabilis. Anchusa like plant with deep blue flowers.

LINUM. Perennial flax. Long season bloomer. Very graceful.

Alpinum. Prostrate with clear blue flowers. 4 in.

Flavum. Very fine yellow flax. 10 in.

Narbonense. Best of the blue flowered flaxes. 18 in. 30c.

Perenne. Intense sky blue flowers. 18-24 in.

Perenne album. A fine white flax.

Salsoloides nanum. Mats of fir-like foliage almost smothered with hundreds of lucent white flowers. Rare and choice. 2 in. 75c.

LITHOSPERMUM Prostratum. Heavenly blue. A fine prostrate evergreen shrub with glorious azure flowers. 35-50c.

- LOISLEURIA Procumbens.** (*Azalea procumbens*) Delightful minute shrub with fine pink flowers. Rare and choice. 1-2 in. \$1.00.
- LONICERA Coerulea.** Small alpine shrub with twin flowers of deep cream color followed by blue berries. 50c.
- LOTUS Corniculatus flore plena.** Baby's slippers. A hardy trailer for covering dry banks and rock work, blooming all summer and autumn. Fine bulb cover with showy double yellow flowers.
- LUTKEA Pectinata.** Prostrate mossy trailing foliage. Light yellow flowers. Resembles a mossy saxifrage. 35c.
- LYCHNIS. Alpina.** Neat tufts with heads of rose colored stars.
Viscaria splendens. Spikes of brilliant carmine flowers.
Viscaria splendens flore plena. Double form of the above.
- LYSIMACHIA Nummularia.** Evergreen carpeter with yellow flowers.
- MENTHA Requienii.** Dense green, mint scented carpeter.
- MERTENSIA Pulchella.** A very lovely native blue bell with exquisite clusters of drooping flowers. 6-8 in.
- MICROMERIA.** Aromatic bushlings with dainty flowers.
Juliana. Wiry stems and tiny pinkish flowers. 6 in.
Libanotica. Silvery gray with lavender pink flowers.
Piperella. Trim little bush with lavender pink flowers and glaucous foliage. 35c.
Rupestris. White flowers.
- MITCHELLA Repens.** Partridge berry. Neat evergreen creeper with white flowers and attractive red berries. 35c.
- MONTBRETIA Rosea.** A salmon rose color form.
- MUHLENBECKIA Rivularis.** Mats of dainty bronzed foliage on wiry stems, and tiny creamy pink blossoms in autumn. 35c.
- MUSCARI.** Grape hyacinths.
Armenaicum. Early giant. Many spikes of deep cobalt flowers. 75c per doz.
Plumosum. Feather hyacinth. Lovely and curious flowers with feathery spikes of lovely lilac flowers. 9 in. \$1.50 per doz.
- NARCISSUS.** The narcissis listed below are all dwarf forms suitable for the rock garden.
Bulbocodium. Hoop petticoat daffodils.
Citrinus. Sulphur yellow. 6-8 in.
Clusii. White 4-6 in. 30c.
Conspicuous. Deep yellow. 6-8 in.
Canaliculatus. Bunch flowered like the Chinese lily with yellow cup and cream colored perianth. Fragrant. 6-8 in.
Minor. A charming miniature Golden Spur daffodil. 6-8 in. 50c.

- Moschatus.** A cream white daffodil with drooping perianth. 10 in.
- NEPETA.** Showy flowered mints for border or rockery.
- Mussini.** Silvery foliage and clouds of lavender flowers all summer.
- Nuda.** A bluer, more upright Mussini.
- Souv. Andre Chaudron.** New dark blue. Very fine. 35c.
- NIEREMBERGIA Rivularis.** Inch high dark green leaves and large pearly white cups in great profusion. 35c.
- OENOTHERA.** Evening primrose.
- Caespitosa.** Mats of foliage with sweet scented white flowers which turn pink after opening. 4 in.
- Mexicana rosea.** Soft pink flowers feathered with rose.
- Pusilla.** Small glossy tufts. Tiny yellow blooms.
- OMPHALODES Cappadocica.** Neat oval pointed leaves with loose sprays of deep rich blue forget-me-nots. 50c.
- ONOSMA.** Rough hairy foliage with sprays of daintily drooping bells.
- Helveticum.** Pale yellow bells. 12-14 in. 35c.
- Tauricum.** Lovely Gold drop. Soft yellow bells. Very fragrant. Choice long season bloomer. 35c.
- Stellulatum.** Similar to Tauricum, but paler. 35c.
- ORIGANUM.** Marjoram. Aromatic bushlings with dainty clusters of bloom.
- Pulchellum.** Grayish foliage and rose colored flowers.
- Virens.** Paler than the above.
- OROBUS Vernus.** A dainty bushlet with an abundance of blue and violet pea shaped flowers.
- OXALIS Adenophylla.** Tufts of crinkly gray green leaves and fine lilac pink flowers. 50c.
- PAEONIA Brownii.** Much divided bluish green leaves with single red and yellow flowers. 50c.
- PAPAVER.** Hardy poppies.
- Orientalis.** Shades of pink and red.
- Orientalis flore plena.** Double red.
- Rupifragnum.** Silvery foliage and salmon orange flowers. 12 in.
- PARONYCHIA Dichotoma.** Attractive creeping plant similar to phlox with showy silvery white flowers. New. 35c.
- PENSTEMON.** Fine American natives with showy snap-dragon like flowers.
- Barrettae.** Choice Oregon native with silvered foliage and spikes of rosy lavender flowers. 35c.
- Cardwellii.** A native evergreen species with showy red violet flowers produced in profusion several times a year.

- Corymbosus.** A fine rare shrubby species with bright red flowers 18 in. 35c.
- Davidsonii.** Tiny compact prostrate evergreen shrub with large brilliant purplish blossoms. 2 in. 35c.
- Diffusus.** A tall leafy species with blue to purple flowers.
- Glaber.** Fine glaucous foliage and bright blue flowers.
- Jeffryanus.** A very fine species with silvery foliage and rich deep blue flowers.
- Menziesii.** Native evergreen creeper with large purple flowers. 35c.
- Oregana.** A woody shrub with narrow gray leaves and soft blue flowers with pink buds. 6 in.
- Ovatus.** A late blooming variety with clear dark blue flowers on weak stems. 18 in.
- Procerus minor.** A low growing evergreen with blue flowers. 4 in. 35c.
- Richardsonii.** Toothed leaves and pink flowers.
- Rupicola.** Gray green foliage. Cherry red blooms. Choice. 35c.
- PHLOX.** Choice American natives with starry flowers.
- Adsurgens.** Choice Oregon native. Fine green foliage and beautiful large clear pink flowers. Creeping habit. A real gem. Likes half shade. 35-50c.
- Amoena.** Eastern native. Bright pink. Good.
- Diffusa.** Oregon native. Neat habit of growth with fine lavender flowers. 2 in. 50c.
- Douglasii.** Dense tufted plant with spiny leaves. Pink to lavender. 3 in. 50c.
- Nivalis Hybrids.** Similar to *subulata*, but blooming later.
- Col. Moore.** Pure white. 50c.
- Mary Alice.** Light pink and red eye. 35c.
- Sir Guilford.** Coarser foliage and large deep pink flowers. 35c.
- Ovata.** Broad foliage and brilliant pink flowers. 6-10 in.
- Subulata.** Prickly evergreen foliage with sheets of bright flowers.
- Alba.** Fine white blossoms.
- Apple Blossom.** White tinted pink.
- Atropurpurea.** Dark foliage and deep red blooms. Choice and new.
- Blue Hills.** Compact. Flowers blue tinged with lavender.
- Brittoni.** White star like flowers and fine foliage. Distinct and lovely. 35c.
- Camla (Camlaensis)** The very best with immense salmon pink flowers freely produced over a long period. Rare. 75c.
- Fairy.** Pale lilac with purple eye. Very dainty.
- G. F. Wilson.** Fine lavender flowers.
- Moerheimii.** Carmine pink flowers. Compact.
- Rosea.** Rosy pink flowers.

Sprite. Unusually large pink flowers with red eyes. Very good.
Vivid. Brilliant rose pink. One of the best. 35c.

PHYTEUMA Scheuchzeri. An attractive campanuloid with deep violet blue flowers in heads. 10 in.

PLATYCODON Mariesii. Handsome deep blue bells. Late summer. 8-10 in.

PLUMBAGO Larpentae. See *Cerastostigma*.

PODOPHYLLUM Peltatum. May apple. Waxy, sweet scented white flowers nearly hidden by large handsome scalloped leaves.

POLEMONIUM. Ferny leaved plants with sprays of fine flowers.

Carneum. Oregon native with flesh pink flowers. Fine.

Forrestii. Lovely blue flowers. 14-18 in.

Humile. Finely cut glaucous foliage and pale blue flowers. 6 in. 35c.

Reptans. Showy blue flowers. Dwarf.

POLYGONIUM. Affine. Pretty pink flowers; evergreen leaves which turn bronzy in the fall. 6 in.

Vaccinifolium. Choice evergreen creeper with fine autumn tints and a profusion of pink flowers in autumn. 2-3 in. 25-35c.

POTENTILLA. Effective rock plants with leaves and flowers somewhat resembling those of strawberries.

Aurea. Very beautiful showers of golden blossoms with orange centers. Quite dwarf. 35c.

Cinerea. A dainty creeper with lovely yellow flowers.

Fragiformis. Silvery velvet leaves. Large golden flowers. 3 in.

Flabellifolia. Shiny leaves and bright butter yellow flowers. 8 in.

Gracilis rigidus. Golden flowers on 6 in. stems.

Multifida. Ferny leaves. Yellow flowers on 5-6 in. stems.

Nana multiflora semi-plena. Dwarf variety with fine double flowers.

Nepalensis. Cherry rose flowers. 14 in.

Nevadensis. Pretty evergreen tufts with small but brilliant yellow flowers. 3 in. 35c.

Nitida. Tuffets of silvery gray foliage with pink flowers. Choice. 50c.

Pinnatifida. Ferny foliage and yellow flowers. 4 in.

Rupestris pygmaea. A tiny white flowered sort of rare charm. 1-2 in. 35c.

Tonguei. Very beautiful apricot blossoms with crimson centers. Dwarf. and very choice. 35c.

Warrensii. Large bright yellow flowers. Profuse bloomer. 18 in.

PRATIA Angulata. Mats of little fleshy leaves with great numbers of starry white flowers followed by purple berries. 35c.

PRIMULA. Primrose.

Acaulis. Bright flowers born singly. Mixed. Early.

Acaulis blue. Mixed shades only. 35c.

Acaulis double lavender. Fine delicate lavender flowers. 35c.

Acaulis double white. Beautiful white form of the above. 35c.

Clusiana. A rare and lovely alpine with fine rosettes of glossy pointed leaves and clusters of beautiful large flowers of glowing carmine with a white eye. 3-4 in. 75c.

Denticulata cashmeriana. Earliest of all with globular flower heads of rosy lilac to white. 6-8 in. 35c.

Frondosa. Silvery farinose leaves and heads of rosy flowers on 4-6 in. stems. 35c.

Juliae. Dwarf mats of glossy foliage and starry claret flowers with golden eyes. 35c.

Acaulis-polyanthus hybrids of Juliae.

Helenae. Very dwarf. Burgundy red. Very free flowering. 50c.

Helene purpurkissens. A dainty sort with deep purple flowers. Very choice. 50c.

Seedlings. A mixture of colors from light pink to purple. Very choice. 50c.

Primrose Lodge. A polyanthus hybrid. Deep crimson flowers in clusters.

Wanda. A fine deep violet. 50c.

Officinalis. Cowslip. Mixed colors. Fragrant.

Polyanthus primroses. Fine umbels of blossom on tall stems.

Kleynii. Fine deep yellow of extremely large size.

Mixed colors. A wide range of lovely colors.

Hose-in-hose. Soft yellow only. 35c.

Rosea grandiflora. Very early bloomer whose deep pink flowers appear before the foliage. Likes moisture and shade. 50c.

Spectabilis. Rosettes of shiny leaves and heads of rosy flowers with white eyes. 75c.

PULMONARIA Angustifolia. Low growing plant with numerous heads of deep sky blue flowers in earliest spring. Shade.

Saccharata. Mrs. Moon. Foliage spotted with silver. Pink buds opening into blue flowers. Rare and choice. 50c.

PUSCHKINIA Libanotica. Scilla like flowers. White petals striped with blue. 10c each.

PYRETHRUM Grandiflorum. Double and single flowers, pink to dark rose.

RAMONDIA Pyrenaica. Dark green crinkly foliage. Large soft lilac blue flowers with golden eyes. Rare and beautiful. 75c-\$1.00.

RANUNCULUS. Buttercup.

- Gramineus.** Glaucous grass like tufts of leaves. Lovely deep yellow flowers. 6-8 in.
- Glaberrimus.** Very finely cut foliage and large brilliant yellow flowers on 3 in. stems. Early blooming.
- RAOULIA Australis.** A choice creeper for moraine or sandy soil. A silvery carpet of tiny rounded leaves. Less than 1 in. high. 50c.
- RHODODENDRON SPECIES.** These are all small, slow growing species suitable for the rock garden.
- Hirsutum.** Compact growth, hairy leaves. Flowers pink to carmine. \$1.00.
- Impeditum.** A fine dwarf lavender blue. \$1.00.
- Intricatum.** Another choice blue. \$1.00.
- Keiskii.** A dwarf growing Japanese species, flowers pale yellow. 2 year old plants. \$1.00.
- Myrtifolia.** Pink flowers. 3 year old plants. \$1.00.
- Oleofolia.** A delightful small shrub, producing its pink flowers when quite young. 2 year old plants. \$1.00.
- Racemosum.** (Mucronulatum) A new rhododendron with rose pink flowers. Very early. 2 year old plants. \$1.00.
- Racemosum.** (Virgatum Series). A beautiful species with small pink flowers in profusion. 75c-\$1.00.
- ROMANZOFFIA Sitchensis.** Tufts of dark scalloped leaves. Delicate sprays of starry white flowers. 35c.
- ROMNEYA Coulteri.** Matilija Poppy. Silvery green leaves and large lovely single white flowers with golden centers. 4-5 ft. 35-50c.
- ROSA.** These are dwarf species suitable for the rockery.
- Arvenensis.** An intensely prickly bushlet with large single creamy yellow flowers. 8 in. 75c.
- Rouletti.** The tiniest rose. Dainty foliage and double pink flowers. Nearly ever blooming. 4-8 in. Choice. 35-50-75c.
- Spithamea.** Choice dwarf rose with attractive single bright pink flowers. 8 in. 50c.
- RUTA Pativina.** Finely divided gray foliage and small yellow flowers. 10 in.
- SAGINA Subulata.** Fine mossy ground cover. Tiny white flowers.
- Subulata aurea.** Golden form of the above.
- SANGUINARIA Canadensis.** Blood root. Blue gray scalloped leaves and waxy white flowers with golden stamens. Early.
- SAPONARIA Ocymoides.** Profuse blooming creeper. Pink flowers.
- SATUREIA Montana.** Aromatic thyme like plant with wiry stems and soft lilac flowers freely produced. Late. 8 in.
- SAXIFRAGA.** Saxifrage. Especially fine rock garden plants.

ENCRUSTED SECTION. These plants form handsome rosettes of narrow leathery leaves, which in most cases are encrusted with a limy deposit, and usually have white or pale yellow flowers. They offer no cultural difficulties and flower in May and June.

Aizoon Alba. Dense rosettes of foliage. White flowers. 6-8 in.

Baldensis. Tiniest of the aizoons. Very compact. White flowers. 50c.

Cochlearis. Humped domes of silvered rosettes bearing graceful red stemmed sprays of large white flowers. 4-6 in. 50c.

Lagroveana. Similar to baldensis but larger with creamy flowers. 4 in.

Rex. Handsome small rosettes with mahogany red flower stems and fine creamy white flowers. Choice. 35c.

Rosea. Rose colored form.

Dr. Ramsay. Neat rosettes of spoon-shaped leaves, heavily encrusted. Rare. 75c.

Gaudinii. Fine leathery rosettes and pink flowers spotted white.

Lingulata lantoskana. Fat little rosettes, heavily encrusted, with graceful plumes of white flowers. 10 in. 50c.

Macnabiana. Highly colored in winter. Flowers white with pink spots. 8-10 in.

Paradoxa. Fine rosettes of long narrow foliage edged with conspicuous beading. 75c.

Pyramidalis. Broad rosettes. Large panicles of showy white flowers. 2 ft. 35c.

KABSCHIA SECTION. Very dwarf alpines of close tufted habit. Flowers usually white or yellow. Very early blooming.

Apiculata. Spiny green rosettes. Primrose yellow flowers. 35c.

Apiculata alba. White form of the above.

Burseriana magna. A most attractive plant blooming in earliest spring with large white blossoms on pink stems. 3 in. 50-75c.

Burseriana Sulphurea. Similar to the above, but with yellow flowers. 50-75c.

Elizabethae. Gray green foliage; abundant yellow blooms. 35c.

Faldonside. Gray green rosettes and large citron yellow flowers. Very fine. \$1.00.

Fernandi-Cobergi. Similar to Elizabethae. Deeper yellow flowers. 35c.

Godseffiana. Blue gray rosettes. Yellow flowers. 35-50c.

Grisebachii. Large silvery encrusted rosettes with handsome bracts of reddish blooms. Rare and fine. 75c-\$1.00.

Haagii. Dark spiny foliage and rich yellow blooms. Early. 35c.

Irvingii. Dense blue gray rosettes. Fine pink flowers. A real gem. 50-75c.

Obristi. Lovely blue gray tufts and fine large white flowers with red calyxes and stems. Very choice. 75c.

Paulina. The finest yellow flowered Kabschia. Lovely gray green cushions and large pale yellow blossoms very freely produced. Choice. 2 in. \$1.00.

Petraschii. Silvery cushions and fragrant white flowers. 50-75c.

Sancta. Neat green foliage with silver beading. Bright yellow flowers. 35c.

MISCELLANEOUS GROUP.

Cartilaginea. Stiff rosettes of leaves with pinkish white flowers. 50c.

Decipiens. Guilford's Hybrids. Lovely shades of white, pink or rose flowers. Forms a soft evergreen carpet.

Decipiens H. S. Stokes. Fine mossy variety with bright carmine flowers.

Megasea Beesiana. Large leathery strap leaves, beautifully colored in autumn. Pink flowers.

Megasea Cordifolia. Bright pink flowers. Early.

Peltata. Moisture loving, with immense leaves on 2-3 ft. stems. Wide heads of fine pink flowers. 50c.

Umbrosa Primuloides. Dwarf London Pride. Compact and fine with pink flowers. 8 in. 35c.

SCABIOSA Graminifolia. Silvery leaves. Pale blue flowers. 35c.

SCILLA. Lovely spring flowering bulbs with small hyacinth like flowers.

Campanulata. Mixed shades of blue and white. 5c each.

Campanulata rosea. A soft lilac rose form of the above. 75c per doz.

Peruviana. Fine wide spikes of brilliant blue flowers. Very showy and fine. 25c each.

Siberica. Blue. Very early. Drooping bell like flowers on 3-4 in. stems. Lovely for the rock garden. 75c per doz.

SCUTELLARIA Alpina. Spreading plant with lavender flowers.

Indica Japonica. Attractive velvety gray foliage and lavender blue flowers through late summer and fall. 35c.

SEDUM. Easy sun loving plants with fleshy leaves. Good for walls, crevices and stepping stones.

Acre. Evergreen mat with yellow flowers. 15c.

Anglicum. Gray green with nearly white flowers. 3 in.

Arboreum. A bushy sort with light pink flowers. 6-8 in.

Cape Blanco. A particularly choice form of *Spathulifolium* with tight gray rosettes and yellow flowers. Oregon native.

Dasyphyllum. Glaucous bead like foliage. Pink flowers.

Douglasii. Oregon native. Green mossy foliage. Yellow flowers.

- Ewersii.** Gray blue shrubby foliage. Rose colored blossoms.
Kamschaticum. Trailing. Bright orange flowers. Choice.
Kamschaticum. Variegatum. Variegated form of the above.
Middendorffianum. Low tufts of narrow reddish brown leaves. Yellow flowers. 4 in.
Obtusatum. Fat bronzy leaves. Golden flowers. Western native.
Oreganum. Fat paddle shaped leaves turning bronzy in the fall. Native.
Purdyi. Flat rosettes of leaves resembling sempervivums. Choice and different. 35c.
Sieboldii. Red edged glaucous leaves. Heads of pink flowers in September.
Spathulifolium. Glaucous foliage. Yellow flowers. Fine.
Spectabile. Erect growing species with large blue gray leaves and flat heads of rose pink flowers. Blooms late. 12 in.
Spurium coccineum. Reddish flowers. Fine autumn colors.
Stahlia. Dwarf yellow flowered sort. Foliage tinged red in mid-summer.

SEMPERVIVUM. Hen and chickens. Succulent plants of easiest culture and loveliest effect. Color of foliage differs in different sorts. The rosettes may be smooth, hairy or covered with cotton wool.

- Acuminatum.** Large glaucous rosettes. 50c.
Alberti. Tiny green rosettes with pointed leaves.
Arachnoideum. Tiny cobweb type. Ruby rose flowers.
Arenarium. Tiny gray green rosettes. Cream colored flowers.
Assimile. Medium rosettes, pale green tipped brown. Rose blooms.
Atlanticum. Pale green rosettes 2 to 3 in. in diameter.
Atroviolaceum. Fine large dark purple rosettes. Striking. 50c.
Austraicum. Small rosettes with bronzy tips.
Braunii. Open rosettes. Distinctly tipped brown. Yellow flowers.
Calcareum. Large glaucous blue green rosettes with purple tips.
Cinerescens. Grayish webbed rosettes. 35c.
Doelianum. Small slightly hairy green and brown rosettes. Red flowers. 35c.
Dolomiticum. Small green rosettes with purple tips. 35c.
Fauconette. Small rosettes, hairy at the tip.
Fimbriatum. Small gray downy rosettes.
Funckii. Emerald rosettes. Red purple flowers. Medium size.
Glaucum. Large glaucous rosettes with rose colored flowers.
Globiferum. Like arenarium, but larger. Yellow flowers.
Havana. Dense rosettes of dark green leaves with purple edges.

Hirtum. Wide open rosettes of emerald green leaves and clear yellow blossoms.

Huteri. Choice hybrid with tight rosettes.

Kochii. Deep bronze rosettes. Very vivid in winter.

Laggeri. Medium rosettes. Cobwebby. Rose flowers.

Lamottei. Green leaves tipped red. Pale pink blooms.

Lown's No. 60. Medium rosettes, suffused red. One of the best.

Mittenianum. Medium gray green rosettes tipped red. Choice. 50c.

Pallidum. Large bright green rosettes tipped bronze.

Pittoni. Medium rosettes of hairy tongue-shaped leaves. Pale yellow flowers.

Purdy 60-1. Large reddish purple rosettes. Vividly colored in winter. 50c.

Purdy 80-1. Four inch rosettes. Deep green with dark red base and tips. Handsome. 50c.

Reginae amaliae. Large rosettes of bronzy purple with yellow flowers. Rare. 75c.

Tectorum. 3-4 inch rosettes, tipped brown. Rose flowers.

Triste. Sombre rosettes of brown tipped leaves.

Violaceum. Medium rosettes of glaucous green faintly tinted purple. 50c.

Collection. We have some very fine unnamed seedlings from rare species. We will send a collection of twelve unnamed sorts, all different for \$2.00.

SHORTIA Galacifolia. Tufts of evergreen glossy leathery leaves with pale pink five-lobed bells in early spring. Fine winter color. 4 in. Choice. 35-50c.

SILENE. Charming plants allied to dianthus.

Acaulis. Moss like tufted plant with sessile pink flowers. 2 in.

Acaulis Nordica. Deeper colored form of acaulis. 35c.

Maritima. Mats of glaucous foliage. Crinkly white flowers.

Saxifraga. Low mounds of foliage. White flowers all summer.

Schafta. Leafy tufts of foliage. Showy rosy purple flowers in autumn.

Shortii. New. Pink.

SISYRINCHIUM. Handsome irids with grassy leaves.

Grandiflorum. Grass widow. Large satiny hanging bells of flashing imperial violet in earliest spring.

Iridifolium. Coarser foliage. Cream flowers in spikes.

SOLDANELLA Alpina. Mats of small leathery round leaves and lovely nodding fringed bells of orchid pink in earliest spring. Very choice and rare. 3-4 in. 50c.

SOLIDAGO Cutleri. Alpine Goldenrod. Bright plumes of golden flow-

ers in July. 5 in. 35c.

Virgaurea nana. European dwarf goldenrod. 9 in.

SPIRAEA *Filipendula flore plena*. Fern like foliage in a neat rosette bearing sprays of creamy white double flowers. 12 in.

Hendersoni. Dense mats of silky rounded leaves with heads of cream white blossoms. Rare and choice. Western native shrub. \$1.00.

SPRAGUEA *Multiceps*. Pussy paws. Flat rosettes of fleshy bronzy leaves and fluffy radiating heads of soft pink flowers. For the moraine.

STACHYS *Corsica*. Fine carpeting plant with light green leaves and white lobelia-like flowers.

Lanata. Lamb's ears. Large wooly leaves and lavender blossoms.

STATICE. Interesting plants with everlasting flowers.

Incana. White flowers. 6-8 in.

Latifolia. Purplish flowers. 16-18 in.

Sinensis. White and yellow flowers. 9 in.

STERNBERGIA *Lutea*. Lovely fall blooming crocus like flowers of golden yellow color and very fine substance. The foliage which appears with the flowers is a handsome glossy green. Bulbous. Mid-summer delivery. 35c.

SYNTHIRIS. Oregon natives. Neat rosettes of leathery leaves and spikes of showy flowers in very early spring.

Pinnatifida. Fringed wooly gray leaves and dainty plumes of deep blue flowers. Rare and new. 75c.

Rotundifolia. Very dwarf. Soft lavender. Blooms most of the winter.

Stellata. Toothed kidney shaped leaves. Spikes of blue flowers. 6 in.

Sweetzeri. Like the above. Larger with deep violet blue flowers. 35c.

TEUCRIUM. Thyme like plants.

Campanulatum. Aromatic, low growing, with finely cut gray foliage and white flowers.

Chamaedrys. Glossy evergreen foliage. Bright rose flowers in spikes. July-Sept. 12 in.

Marum. Very gray foliage and pink flowers. 8-9 in.

THYMUS. Thyme. Valuable aromatic subjects for carpeting hot dry spots, for bulb covers and for walls.

Alsinoïdes. Bushy, with round light green leaves.

Angustifolia. Tiny thick-set leaves. Purple cast in winter.

Aureus. Bushy type. Golden foliage.

Azoricus. Fine neat gray evergreen foliage with lilac flowers.

Balticum No. 2. Choice new creeper with hairy foliage.

Cimicinus. Trailing with tiny leaves. Purplish cast in winter.

- Citriodorus.** Lemon-scented thyme. 8-10 in.
Argenteus. Silver leaved lemon-scented thyme.
Aureus. Gold leaved lemon-scented thyme.
Erectus. Stiffly erect. Very effective. 10 in.
Fragrantissima. Distinct variety with gray foliage. Very fragrant.
Herba-barona. Perfectly prostrate creeper. Anise odored.
Hirsutus. Small, round, fuzzy blue green leaves. Creeping habit.
Lanicaulis. Loose growing, with gray alyssum-like leaves.
Marschallianus. Very fine with lovely pink flowers. 35c.
Micans. Tidy close clumps, starry and wiry in effect.
Nummularius. Sweet scented mat-forming species. Late blooming. Glossy foliage.
Russian species. Long trailing stems. Thick round leaves. Gray.
Serpyllum. Creeping thyme.
Album. White flowered form with pale green leaves.
Annie Hall. Lovely pink flowers. Light green foliage. New.
Chamaedrys. A larger lanuginosus.
Coccineus. Darker foliage. Crimson flowers.
Coccineus splendens. More brilliant than the above.
Lanuginosus. Woolly thyme. Gray velvet foliage. Lavender flowers.
Roseus. Rosy pink flowers.
Zygis gracilis. Ascending branches. Pure white flowers. 3-4 in.
- TRADESCANTIA Brevicaulis.** Clusters of deep rose pink flowers. Long season bloomer. 12 in.
- TRILLIUM. Chloropetalum.** Sessile trillium. Very large flowers, white to dark red.
Nivale. Southern Oregon native with white flowers slightly speckled with brown in the center. 3-4 in.
Ovatum. Western trillium. Large white flowers becoming pink with age.
Petiolatum. Narrow petalled dark red flowers.
Rivale. Very tiny plants with white flowers. 2 in.
- TRITELEIA Uniflora.** Bulbous plants with narrow leaves and starry blue tinted white blossoms over a long period.
- TRITOMA**—See kniphofia.
- TROLLIUS Europaeus.** Luminous yellow globes. Shade and moisture. 35c.
- TULIPA Kaufmanniana.** Water lily tulip. Flat creamy blossoms with golden centers and carmine reverse. 25c each.
- TUNICA Saxifraga.** Airy foliage and clouds of light pink blossoms all summer.

ULEX Nana. Dwarf autumn-flowering gorse. Yellow flowers. 2 ft. 50c.

VERONICA. A vast and variable family containing some of the best blues for the rockery.

Erica. Heath like in appearance. Erect rosy spikes of flowers. 8 in.

Incana. Silvery foliage. Violet flowers. 8 in.

Nummularia. Charming ground cover with smooth shiny roundish leaves and blue flowers. Quite distinct.

Pectinata rosea. Velvety leaves and rosy flowers. Fine creeper.

Prostrata. Dwarf species with brilliant blue flowers.

Repens. Trailing species with pale blue blossoms.

Rupestris rosea. Spikes of soft pink flowers. Good.

Saxatilis. One of the choicest. Shiny foliage and deep blue flowers. Prostrate habit.

Spicata. Violet blue flowers in 12 in. spikes.

Spicata alba. Dwarf white form.

Teucrium trehani. A dwarf bush hybrid with blue flowers and golden foliage.

VIBURNUM Opulus nana. A dwarf snowball, very compact with white flowers followed by red berries. Beautiful fall color. 1 ft. 50c.

VIOLA. Colorful subjects for sun or light shade.

Florariensis. Blooms almost continuously. Lilac pansy shaped flowers. 6 in.

Jersey Gem. Fine violet flowers all season. Popular.

Jersey Jewel. Larger than the preceding. Rich purple.

VIOLA SPECIES. Shade.

Adunca. Our most showy wild blue violet. Heart shaped evergreen leaves and large flowers on 4 in. stems.

Arenaria rosea. Tiny tufted violet with rose colored flowers.

Beckwithii. Deciduous cut leaf type with two upper petals purple and lower ones pale violet. Oregon native.

Chrysantha. Deciduous native with finely cut foliage and large yellow flowers of fine substance with brown reverse.

Hallii. Oregon native. Wild pansy. Finely cut foliage. Two upper petals dark violet; three lower ones yellow or cream. Good.

Nuttallii. Fine yellow flowers and hairy lanceolate leaves.

Odorata. Sweet violets.

Double Russian. Very fragrant deep violet flowers.

Marie Louise. Pale lavender blue. Double. 35c.

Rosina. Deliciously fragrant violet with old rose flowers.

Swanley white. Choice white. Double. 35c.

Pedata. Bird's foot violet. Eastern native. Cut leaf foliage. Large pale violet blossoms. Needs acid soil. 35c.

Pedata bicolor. Exquisite form of the above with the two upper petals royal purple. 35c.

Riviniana. Fine alpine violet with light blue flowers. Long season bloomer.

Trinervata. Bicolor deciduous native with fine cut gray green leaves.

WULFENIA Carinthiaca. Tuffets of leathery leaves and spires of small blue flowers. 6-9 in. 35c.

XEROPHYLLUM Tenax. Squaw grass. A striking mountain plant with clumps of tough grass like foliage and tall fluffy spires of creamy white flowers. We advise spring planting. 75c.

ZAUSCHNERIA. Drought resistant plants with bright red fuschia like flowers in late summer.

Californica. Trailing habit. Pleasing gray foliage. 35c.

Macrophylla. Finely cut green foliage. Erect habit. Flowers in panicles. Handsome and graceful. 18-24 in. 35c.

IRIS SECTION

Of all the many kinds of plants which grow, the iris species is the most versatile. There are tiny dwarf varieties, and stately tall kinds that grow more than four feet high. There are iris blossoms as dainty as orchids, tall flamboyant bearded irises and deep sombre varieties from the east. There are few weeks of the year in which some sort of iris does not bloom, and few situations in the garden where some variety will not thrive, from the bearded iris in the hot sunny border to the water iris in the pool. Irises vary in color: white, all shades of blue and purple, yellow, orange and bronze; in fact all colors but bright red.

We are glad to welcome visitors to our garden at any time, even in winter when the lovely iris *Stylosa* is in bloom. In March many of the bulbous irises flower, and early in April the dwarf bearded irises begin to bloom. From then until July the garden is full of color. We recommend a visit to our gardens during the blooming season, as we feel that better selections can be made if the plants are seen in bloom in the field. It is impossible to give an accurate description of the many delicate shades of color in the few words which are available to us in the catalogue.

A list of intermediate and tall bearded irises will be sent to anyone who wishes to write for it.

BEARDLESS IRIS SPECIES

- Acoroides.** Similar to *Pseudacorus*, but more dwarf with larger ruffled flowers. Sulphur yellow. \$1.00.
- Arenaria**—See Palestine Iris.
- Bloudowli**—See Palestine Iris.
- Bracteata.** Wide scanty foliage, shiny on the upper surface. Large deep yellow flowers veined purple brown. Choice Oregon native. 50c.
- Bulleyana.** One of the *Siberica* group with blue purple falls and bluish purple standards on a light yellow ground. Summer delivery. 75c.
- California Blend.** A group of seedlings of California species covering a wide range in color and form. 35c.
- Carolina.** A rather small flowered blue species especially good for shade. 35s.
- Chrysophylla.** Lovely low-growing species with white or soft yellow flowers veined purple. 35c.
- Chrysographes.** Blossoms deep rich velvety purple conspicuously veined with gold. Choice and rare. 34-40 in. \$1.00.
- Chrysofor.** Hybrid *Chrysographes* and *Forrestii*. Like most hybrids, the color varies in different individuals. Attractive combinations of blue shades with yellow. 35c.
- Cristata.** A lovely little species which stars the ground with tiny wide open lavender flowers with darker markings on the falls. Fine for the rockery. 25c.
- Cristata Alba.** A rare white-flowering form of *cristata*. Singularly pure and lovely. 50-75c.
- Delavayi.** *Siberica* type. Beautifully veined and spotted blue on a white ground. Produces a fine effect. 32 in. 75c.
- Dichotoma.** Vesper Iris. Flowers in August, and continues for three or four weeks, although individual flowers last only a day. White to purple. 35c.
- Dorothea K. Williamson.** Deep velvety purple flowers of unusual beauty and substance. 35c.
- Douglasiana.** Oregon native. Masses of evergreen foliage. Flowers two to a stem freely produced. Varies from deepest purple through mauve and lavender to white. 35c.
- Dwarf purple.** Grows only 12 in. high. 35c.
- Tall light blue.** A late bloomer with showy ruffled pale blue flowers. 24-30 in. 35c.
- White.** A most unusual and beautiful pure white with yellow signal patch. Very large flower. Early. 16 in. 50c.
- Elephantina Alba.** Choice southern native. Ivory white with golden crest. Large and fine. Summer delivery. \$1.00.
- Ensata.** Handsome little *ageratum*-blue flowers. Free flowering. Early 50c.

- Foetidissima.** The seed pods remain on the plant in winter, bursting open and displaying rows of orange red seeds. Flowers inconspicuous, foliage evergreen. 50c.
- Foliosa.** Deep velvety blue flowers and abundant foliage. 25c.
- Forrestii.** Grassy foliage and lovely clear yellow blossoms. 15-18 in. 50c.
- Forrestii-Longipetala Hybrid.** Blue and yellow variation of the parents. 50c.
- Fulva.** Unique and striking terra-cotta red variety. Distinct. 50c.
- Fulva Yellow.** Very rare exquisite yellow color form of Fulva. Summer delivery. \$5.00.
- Fulvala.** Similar to D. K. Williamson, but more coppery in tone. 35c.
- Gigantea Coerulea.** A tall southern species. Fine blue with a yellow crest. Summer delivery. \$1.00.
- Gracilipes.** Dainty small crested flowers of light pinkish mauve on slender stems. Crest bright orange. Delicate. 25-50c.
- Gracilipes Alba.** Exquisite white form of this lovely Japanese species. Rare and new. \$2.00.
- Gormanii.** Oregon native. Similar to Tenax, but with soft yellow flowers. Choice. 50c.
- Graminea.** Violet and blue flowers. Plum scented. 8 in. 50c.
- Guldenstadtiana.** Narrow petalled blue and yellow flowers. 18 in. 25c.
- Hookeri.** Similar to Setosa, but with larger flowers of deeper tone. 75c.
- Hyacinthiana.** Attractive flowers of soft blue and sulphur yellow with fine brown veins. Exceptionally fine. 50c.
- Innominata.** A rare new species from southern Oregon with slender grass like leaves and showy ruffled flowers of good size.
- Orange.** Deep brilliant orange. Very beautiful. 75c-\$1.00.
- Yellow.** Bright yellow, more or less heavily veined brown. 50c.
- Japonica.** Dainty, frilly orchid-like blossoms of soft lavender with orange crests, in airy sprays. Early. 25c.
- Kaempferi.** The true species. Large red purple flowers marked yellow. Summer delivery. 75c.
- Koreana.** A dwarf Siberica type. Blue flowers. Summer delivery. 12 in. 50c.
- Lacustris.** Similar to Cristata, but with darker flowers. 35c.
- Laevigata Albo-Purpurea.** Good for water or ordinary garden conditions. The flat blossoms have a white ground, heavily flecked with blue purple. 75c.
- Laevigata Semperflorens.** (Formerly listed as Kaempferi Unknown) An iris for shallow water, 2-3 ft., bearing lovely flowers of a uniform deep blue with a striking yellow blotch on the falls. Blooms constantly from mid-summer to November in this climate. A very fine addition to the water garden. \$1.00.

- Longipetala.** Robust and floriferous. Several large flowers veined violet on a white ground are borne on each stem. California. 35c.
- Minuta.** A tiny species of great rarity. The dainty flowers are a pleasing shade of light yellow, marked with brown and are borne on very short stems. Rare. \$1.50.
- Missouriensis.** Slender foliage and attractive flowers with dark blue veining on a white ground. Rocky mountains. 35c.
- Prismatica.** Lilac purple blooms with a yellow throat and darker veins. Very dainty and desirable. 35c.
- Pseudacorus.** Deep yellow flowers with brown veins. Wet and sunny position. 25c.
- Purdyi.** Flower form similar to *Bracteata*, but foliage is narrower.
Lavender form. 50c.
White form. 50c.
- Rossii.** A rare species from Korea, similar to *Ruthenica*. Summer delivery. \$1.00.
- Ruthenica.** Dwarf with deep blue-purple flowers. Rare. Good. 50-75c.
- Setosa.** Broad foliage, often stained purple at the base. Color varies from light purplish blue to deeper shades, sometimes tinged with red. Standards are reduced to mere points. 75c.
- Sintensisii.** South Italian form. Slender species. Flowers heavily mottled and doted with blue on a white ground. 8 in. 50c.
- Stylosa Speciosa.** (*Unguicularis*.) Winter-blooming iris. For milder climates. The deep blue flowers are born amid the grass-like foliage on perianth tubes about 8 in. long. 25c.
- Stylosa Marginata.** An ampler and taller form of the above. 50c.
- Stylosa Marginata Alba.** A lovely white form of the above. 50c.
- Tectorum.** Japanese Roof Iris. Violet blue frilled petals. Very large crest. Interesting and lovely. 50c.
- Tectorum Album.** A very lovely white form of *Tectorum* with a beautiful golden crest. \$1.00.
- Tectorum Lilacena.** A fine lilac form. Summer delivery. 75c.
- Tenax.** Oregon Iris. Pleasing and graceful. Colors vary from deep rich red-purple through mauve and lavender to palest pearl gray. 12-15 in. 25c.
- Tenuis.** Flowers are white with a few purple veins and a patch of yellow in the center of the falls. Likes partial shade. 6-10 in. Very rare. Oregon native. 35c.
- Tricuspis.** Like *Setosa*, but usually lighter in color, although it varies greatly in color and height. 50c.
- Verna.** Lovely dwarf iris with bright blue flowers, with a central orange ridge on the falls. Shade and acid soil. 35c.

Versicolor. Tall light purple blue flowers. Perfectly hardy and useful for landscaping.

Vinicolor. A striking plant bearing fine wine colored blossoms on 2-3 ft. stems. \$1.00.

Wilsonii. A rare species with yellow flowers, somewhat veined with brown on the falls. Summer delivery. \$1.50.

SPURIA IRIS

Oriental Iris. These tall beardless irises have wide grassy leaves usually three to four feet long and produce their flowers well above the leaves in June. They do well in any soil, but will grow in damp situations where tall bearded irises will not thrive.

Monnieri. A very handsome deep yellow flower, similar to Ochroleuca, but of a solid yellow color. 50c.

Mrs. Tait. Soft porcelain blue. 50c.

Ochroleuca. Showy, with white blossoms marked brilliant yellow on the falls. 50c.

BULBOUS AND TUBEROUS ROOTED IRIS

These irises are very beautiful, and fairly easy of culture in a well drained situation.

Bucharica. Wide light green foliage. The plant bears several fine creamy yellow flowers at the top of each stem and one in each leaf axil. Floriferous and long blooming, beginning in February. 12 in. 75c.

Persica. A strikingly beautiful dwarf species with white flowers tinged with pale sea green. Blooms very early. 4 in. \$1.25.

Reticulata. A rare and beautiful iris with deep blue purple blossoms of velvety texture with a golden streak on the center of the falls. Good for the rockery. Blooms in February and March. 35c.

Sindpers. Large ruffled flowers of exquisite powder blue with golden markings on the falls. Blooms with Reticulata. Rare and new. \$1.50.

Tuberosa. A very odd, exceedingly fragrant variety with apple green flowers with a lip of velvety blackish purple. 12 in. 50c.

PALESTINE IRIS

These plants are very fine sorts belonging to the Oncocyclus and Regelia sections and their hybrids. All have large flowers of striking and unusual color combinations. They bloom with the Intermediate bearded irises. They should be planted where the roots can ripen and bake through the summer.

Arenaria. Very dwarf with lovely bright yellow flowers with an orange beard on 1 to 2 in. stems. Free flowering. April. 50c.

- Artemis.** Regelio-Cyclus hybrid. Very dark violet purple with deeper markings. Large and vigorous. \$1.50.
- Bloudowii.** Similar to arenaria, but taller and a little later. Buds, brownish black opening to brilliant flowers veined brown. 3-4 in. 50c.
- Carmello.** Pogo-Cyclus hybrid. Soft gray blue with deeper veins. 35c.
- Charon.** A handsome velvety flower of unique coloring. Beautiful bronze veined with deeper brown. 15 in. \$1.50.
- Freya.** Regelio-Cyclus hybrid. Violet purple on a white ground. \$1.50.
- Hebe.** Regelio-Cyclus hybrid. Heavily veined purple on a gray ground. Very handsome. \$1.50.
- Hermione.** A beautiful variety with large flowers deeply veined mulberry on a lighter ground with conspicuous dark beard. One of the finest Regelio-Cyclus hybrids. \$1.50.
- Hesperia.** Regelio-Cyclus hybrid. Large flowers. Pinkish fawn veined mahogany. \$1.50.
- Hoogiana.** Fine soft uniform blue, admirably set off by the golden beard. 18 in. 50c.
- Ib-Pall.** Pogo-Cyclus hybrid. Ruffled reddish violet flower. 35c.
- Luna.** Regelio-Cyclus hybrid. Large white flowers veined with lilac blue. Very handsome and striking. \$2.50.
- Nemesis.** Regelio-Cyclus hybrid. Gorgeous wine purple with rounded segments beautifully veined in a deeper tone. Conspicuous dark beard. \$1.00.
- Stolonifera.** Handsome species with flowers blended brown and purple shot with electric blue. 50c.
- Susiana.** Mourning Iris. One of the largest flowered irises. The large round standards are speckled and veined with purple black on a grayish ground which produces a sombre and beautiful effect. The falls appear somewhat darker than the standards. The whole flower is singularly beautiful. \$1.50.

JAPANESE IRIS

(Figures denote number of petals)

- Aspasia** (3) Amethyst with delicate blue lines radiating from the central yellow bar. Center darker. 50c.
- Ayasi** (3) Claret; pencilled white surrounding the gold bar; stamens white tipped with lavender. 25c.
- Avigata.** (3) Dark plum and gray. Veined purple. 25c.
- Catherine Parry.** (6) Blue overlaid rosy red. Very double. 35c.
- Clarice Childs.** (3) Petunia violet; conspicuous yellow center surrounded with blue. Large. 35c.
- Cloud Dress.** (6) Gray ground with prominent purple lines radiating from the gold bar. 50c.

- Choisei-Den.** (6) Ruffled claret and white. 25c.
Columbia. (6) Blue with pure white veins. Striking. 50c.
Date-Dogu. (3) Rich claret red, orange blotches, surrounded by blue halo. 35c.
Dominator. (3) Rich indigo blue with narrow white stripes and light center. One of the finest. 35c.
Eleanor Parry. (6) Claret red flamed white and blue. 35c.
Fascination. (6) Blue lightly veined white with a pink tinge. 50c.
Frances Cleveland. (3) Considered the finest light blue. Very large and lovely. 50c.
Gekko-No-Nami. (6) White with prominent yellow bar. 25c.
Goko. (3) Mottled blue. Very wide petals. 35c.
Idzumi-Gawa. (6) Gray, radiating dark blue veins. 35c.

DWARF BEARDED IRIS**Pumila, Chamaeiris and hybrids.**

(Abbreviations: S—Standards; F—Falls.)

We specialize in dwarf bearded iris and offer a very fine and complete collection. These low growing irises are very free flowering and are admirably suited to the rock garden as well as the iris border, where they may be used in front of the taller sorts to prolong the blooming season, as they bloom earlier than the taller varieties.

Alba. Popular early white with a yellow beard. Very fragrant. 6 in.

Albatre. Near white, veined pale lilac. Beard white. 7½ in.

Alpin. S., lobelia blue. F., reddish purple. 5 in.
